EDUCATION

University of Washington Seattle

Fall 2026 - Spring 2028

M.S. in Human Computer Design and Engineering

University of California, Riverside

2023-2026

B.S. in Computer Science with Business Applications, Chancellor's List | 3.95 GPA

MENTORSHIP

Machine Organization and Assembly Language Programming Grader | UCR CS Department March 2025 – June 2026

- Held weekly office hours supporting 30+ students with debugging and core programming concepts.
- Graded 300+ programming assignments and in-class exercises per week using detailed, rubric-based feedback.

Lab Leader | UCR Math 003

September 2024 – March 2026

- Developed student-centered lesson plans for 30 Intermediate Algebra students to strengthen foundational skills.
- Used diverse teaching methods to accommodate different learning styles, lifting participation by 30%, and provided personalized support during weekly office hours, reaching ~80% of students by identifying individual challenges.

EXPERIENCE

UI/UX Designer & Web Developer Intern | Reneal (Non-Profit Organization)

July 2025 – Present

- Collaborated with stakeholders to modernize and implement a responsive website, improving UX and accessibility.
- Developing data implementation features to enhance site functionality and track engagement metrics.

Web Development Intern | 8dge

July 2025 – Sep 2025

- Designed ERD diagrams for a multi-tenant sports booking system supporting users and tenant administrators.
- Developed backend API endpoints for users to book courts and tenant features to manage courts and to enhance UX
- Translated Figma designs into responsive, production components, working across design and engineering.

Co-Director | DesignVerse - Design@UCR

March 2025 – June 2026

- Assigning tasks to each respective committee, critiquing and reviewing code and designs to ensure quality.
- Managed committee leads to ensure proper communication and to keep everyone on track for the event.
- Organized workshops and social events, enhancing student participation and assisting with UI/UX for projects.

Lead Website Developer & External Affairs Board Member | ACM@UCR

July 2024 – June 2026

- Led the development of a responsive website, leading to a 15% increase in active club membership and attendance.
- Collaborated with designers and ambassadors in weekly planned meetings to assess design alignment and feasibility.
- Mentored developers through workshops and code reviews, ensuring clean, consistent UI across devices.
- Led external outreach and partnerships, coordinating with campus organizations and sponsors.

PROJECTS

Webcam-Based Eyetracking for Neurodevelopment Research | Python, JS, CV

Feb 2026 – June 2026

- Develop an improved webcam-based eye-tracking method using computer vision models to increase accuracy.
- Testing and evaluating new eye-tracking algorithms, benchmarking performance against prior WebGazer baseline.
- Assisting in user-friendly research pipeline and building experiment paradigms to measure eye movements.

UCR STAR – Spatio-Temporal Active Repository | HTML, JavaScript, CSS

Jan 2026 – Mar 2026

- Upgraded the geospatial research platform serving 251+ datasets totaling 2.70TB to the research community
- Translated Figma designs into responsive components, improving visual consistency and usability across the site.
- Integrated API calls to visualize geospatial datasets on an interactive GIS map, enabling researchers to explore data

SKILLS

Design Tools: Figma, Miro, Asana, Notion, Trello, Framer, Adobe

UX Practices: Accessibility-focused design, design-to-development handoff, iterative feedback, user research

Languages: Python, C++, HTML5, CSS, TypeScript/JavaScript, React, Next.js, React Native

Database & Technologies: PostgreSQL, Docker, Node.js, Tailwind CSS, NativeWind, Jest, pytest
